YOUR HEADACHE-FREE GUIDE TO RACK IT LIKE A BOSS

You've got this! We know because you take pride in your passions. Take care of your stuff. That's why you purchased this Rack It 1000KG Peg Board. You're particular. And we like that. Because we know you'll take the time to check off all the Parts listed below and to read through these Assembly Instructions before you start Cue Farnsey (or Beyoncé – whatever lifts you). **Let's get this started.**

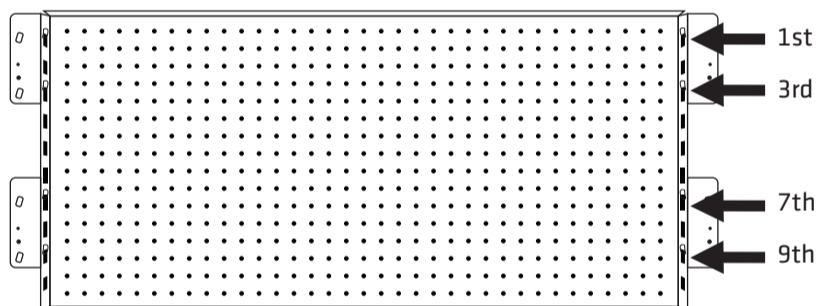

PARTS LIST:

OPTION 1: SINGLE PEG BOARD

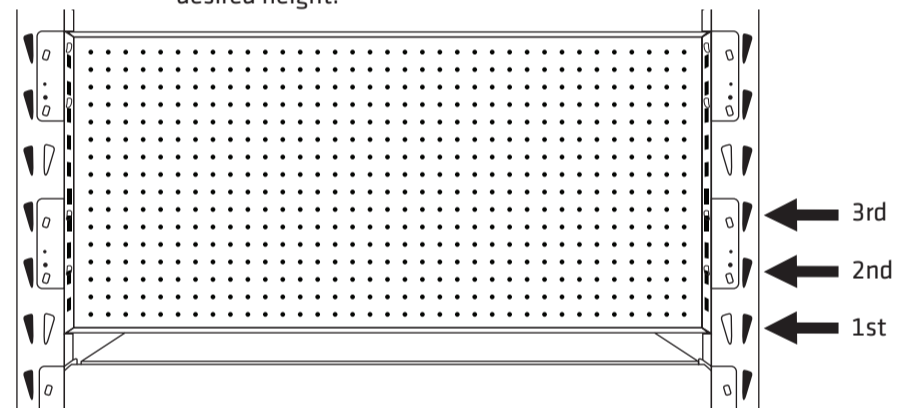

This is where your Peg Board adventure begins. Pay attention to the Pics, do it right and you'll set yourself for future Peg Boarding glory.

STEP 1 Attach all 4x Brackets to the back of your Peg Board. Insert the Top Brackets into the 1st and 3rd Hole positions (see Pic 1A). Insert the Bottom Brackets into the 7th and 9th Hole positions.

Note: Back of Peg Board

STEP 2 This is where your friend comes in handy. Lift the Peg Board by the Brackets and mount it onto your existing Uprights at your desired height.

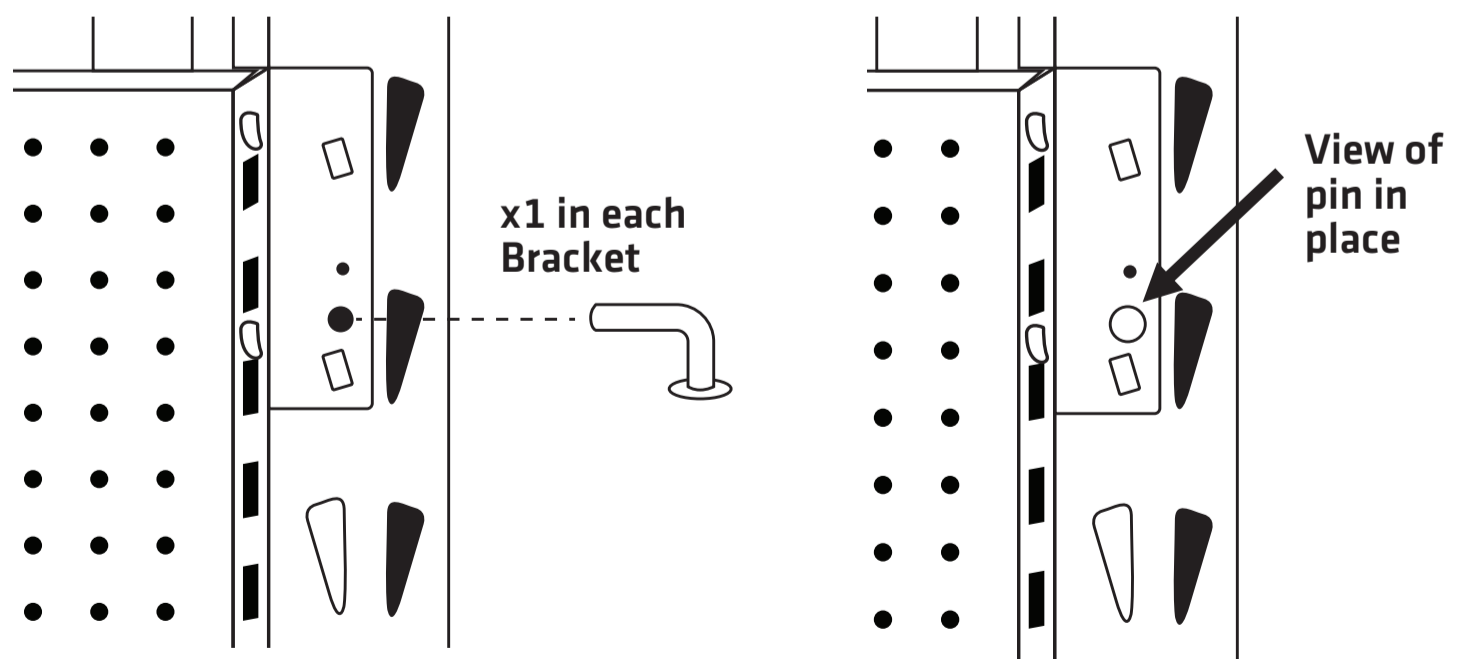

Hot tip:

For best results attach the Bottom Brackets into the 2nd and 3rd Upright Slots above a Workbench Shelf. Then you can marvel at those perfectly stashed precious things whenever you like.

STEP 3

Insert Safety Pins into all 4x Brackets and you'll stop your Peg Board doing anything crazy, like tipping over.

Give yourself (and your friend) a hi-five! You've got this pegged.

TOOLS REQUIRED: Rubber Mallet (or Hammer – gently does it)
Phillips Head Screwdriver
10mm Spanner or Shifter
And it pays to grab a friend, as it'll be easier with 2 of you.

WARNING: HANDLE CUT METAL EDGES CAREFULLY

SAFETY TIP

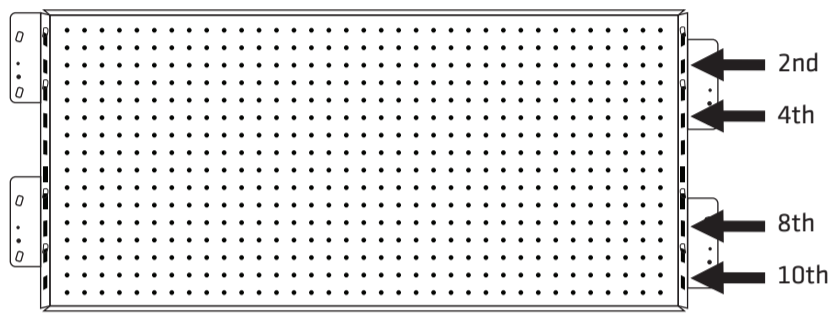

When assembling or installing this product wear protective gloves and eyewear

OPTION 2: STACKED PEG BOARD

When a single Peg Board is not enough; let's learn how to stack 'em...

STEP 1

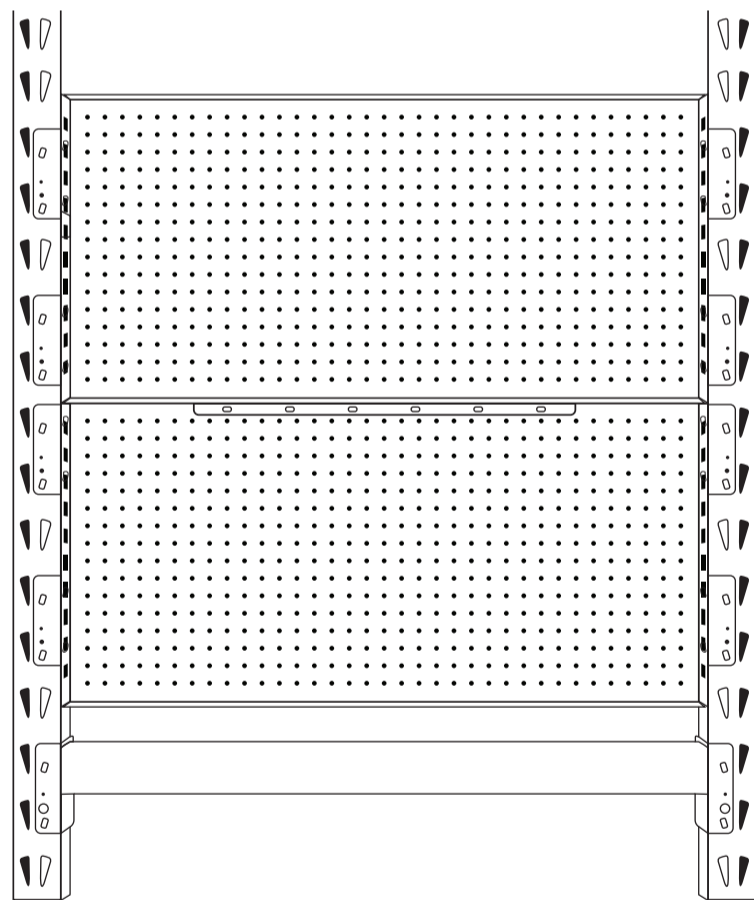

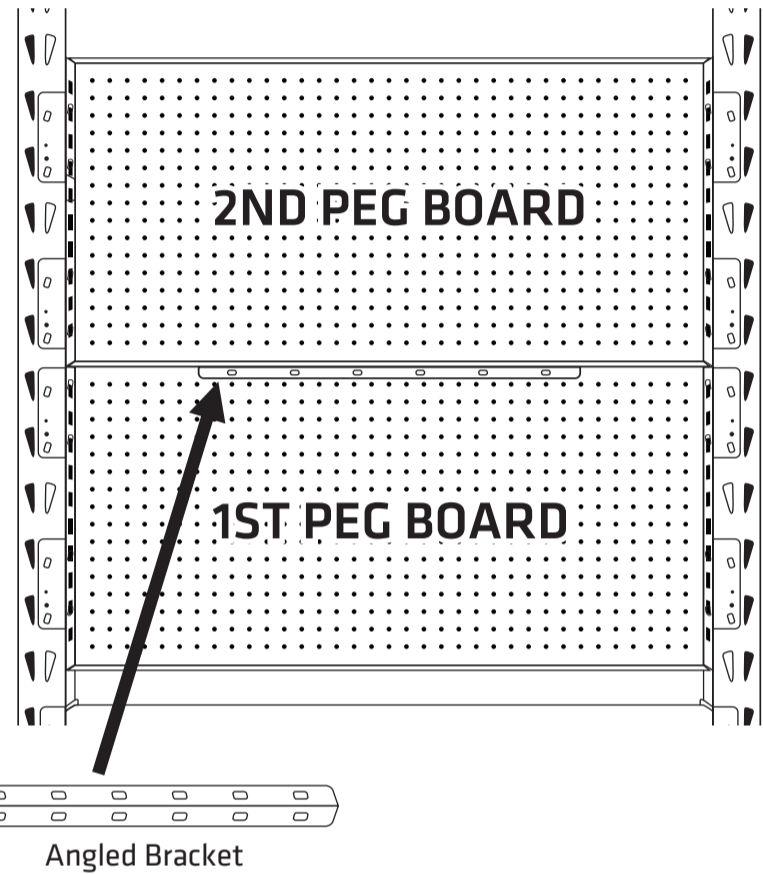

Repeat Single Peg Board installation to create Peg Board 2.0. But this time, insert the Brackets into the Hole positions as shown.

Note: Back of Peg Board

STEP 2

Place your Peg Board 2.0 above your existing one, and slot it straight into the next available Slots on the Uprights. Once it's sitting pretty, slot the Angled Bracket between the 2x Peg Boards, align the Bolt Holes and secure with the supplied Nuts and Bolts.

Give yourself (and your friend) a hi-five! You've got this pegged.

TOOLS REQUIRED: Rubber Mallet (or Hammer – gently does it)
Phillips Head Screwdriver
10mm Spanner or Shifter
And it pays to grab a friend, as it'll be easier with 2 of you.

WARNING: HANDLE CUT METAL EDGES CAREFULLY

SAFETY TIP

When assembling or installing this product wear protective gloves and eyewear

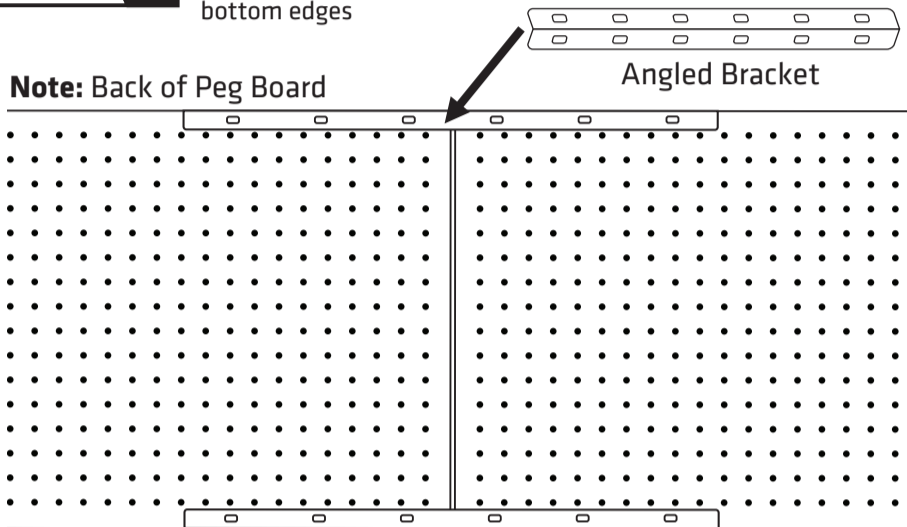

OPTION 3: SIDE-BY-SIDE PEG BOARDS

When a single Peg Board is not enough and if you can't stack them vertically, you can always go horizontal...

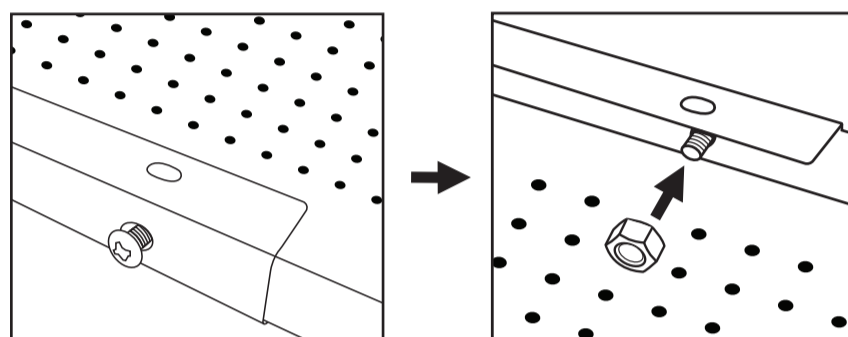

STEP 1 With 2x Peg Boards side by side, join the back of them together by aligning the Angled Bracket with the Holes on the top and bottom edges

Note: Back of Peg Board

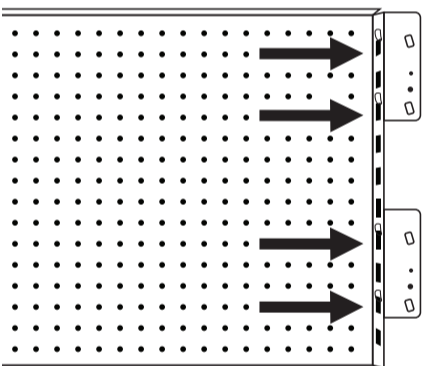

Angled Bracket

STEP 2 Insert a Bolt through all 6x Holes of each Angled Bracket and the Peg Board, then tighten them off with a Nut.

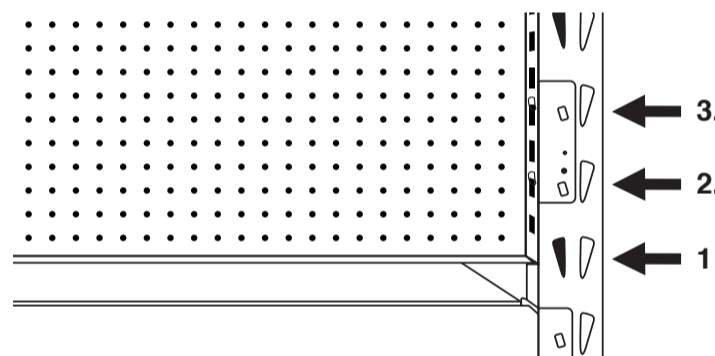

STEP 3 Attach 2x Brackets to each side of your now super-wide double Peg Board. The Top Brackets slot into the 1st and 3rd Hole positions. And the Bottom Brackets slot into the 7th and 9th Hole positions.

Top brackets to be inserted into the 1st and 3rd hole positions.

Bottom brackets to be inserted into the 7th and 9th hole positions.

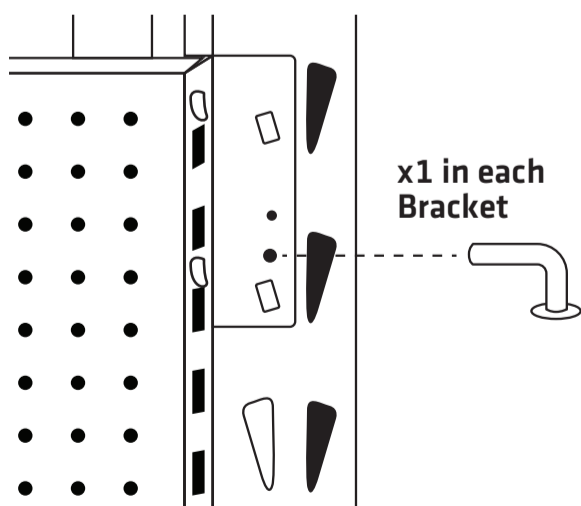

STEP 4 With one person at each end, while holding the Brackets lift the super-wide double Peg Board into position.

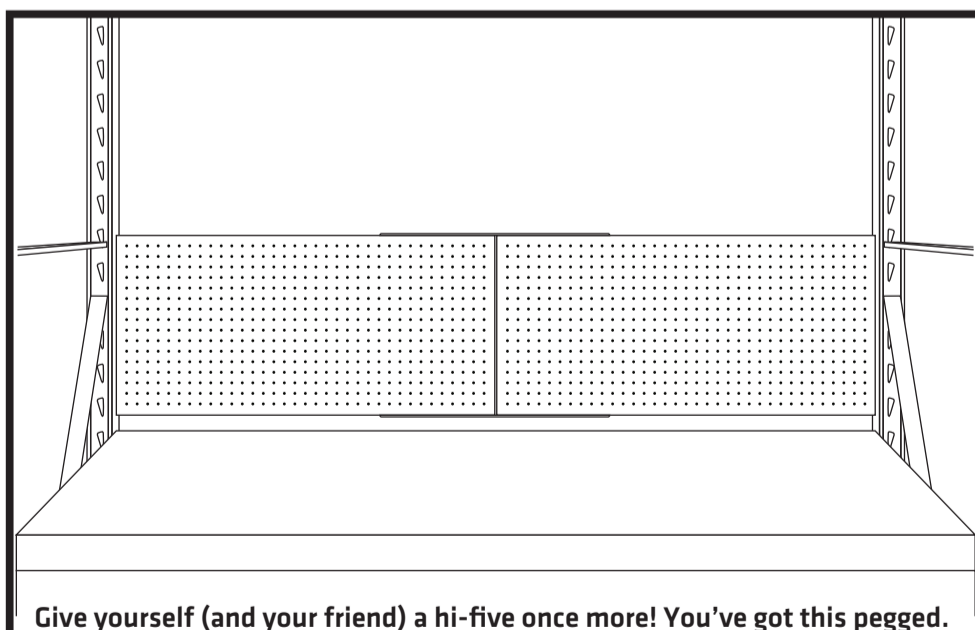

Hot tip:

For best results attach the Bottom Brackets into the 2nd and 3rd Upright Slots above a Workbench Shelf. Then you can marvel at those perfectly stashed precious things whenever you like..

STEP 5 Insert Safety Pins into all 4x Brackets and you'll stop your Peg Board doing anything crazy, like tipping over.

x1 in each Bracket

Give yourself (and your friend) a hi-five once more! You've got this pegged.

TOOLS REQUIRED: Rubber Mallet (or Hammer – gently does it)
Phillips Head Screwdriver
10mm Spanner or Shifter
And it pays to grab a friend, as it'll be easier with 2 of you.

WARNING: HANDLE CUT METAL EDGES CAREFULLY

SAFETY TIP

When assembling or installing this product wear protective gloves and eyewear

OPTION 4: 2 X 2 PEG BOARDS

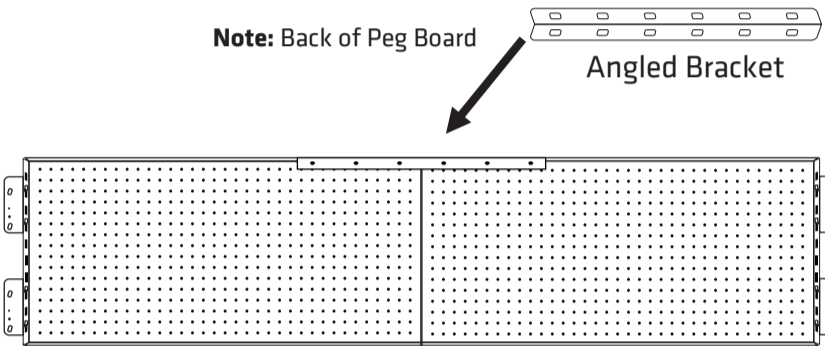

You're now a Peg Board Master. And you want to take your storage capability to the next level.

STEP 1

Follow all the Steps on the Side-by-Side Peg Board above to create and mount a super-wide double Peg Board, but don't attach the Angled Bracket just yet. This is your Bottom half.

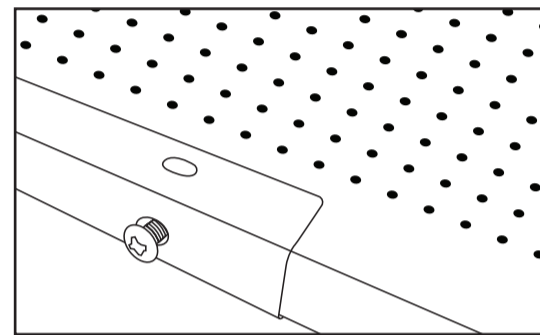

Note: Back of Peg Board

Angled Bracket

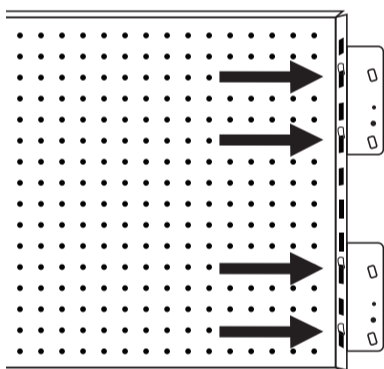

STEP 2

Assemble the Top half of the Peg Board, this time aligning the Angled Bracket with the Holes on the Top edge. Then fix the Angled Bracket off with 6x Nuts and Bolts.

STEP 3

Attach 2x Brackets to each side of your Top half super-wide double Peg Board. Slot the Top Brackets into the 2nd and 4th Hole positions, and the Bottom Brackets into the 8th and 10th Hole positions.

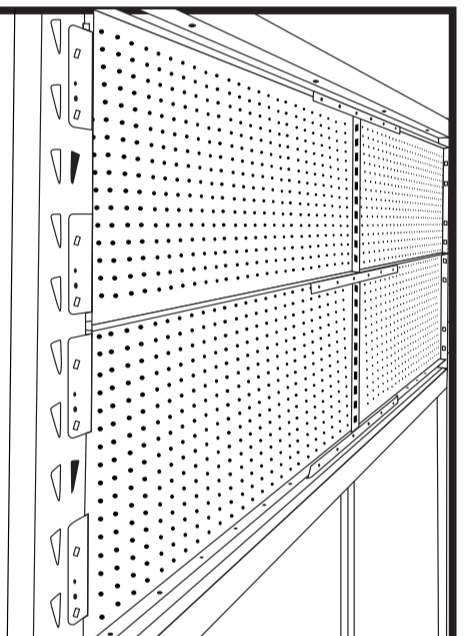

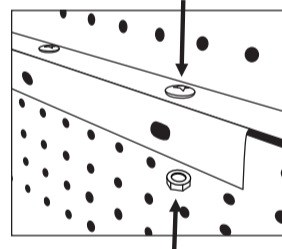

Top brackets to be inserted into the 2nd and 4th hole positions.

Bottom brackets to be inserted into the 8th and 10th hole positions.

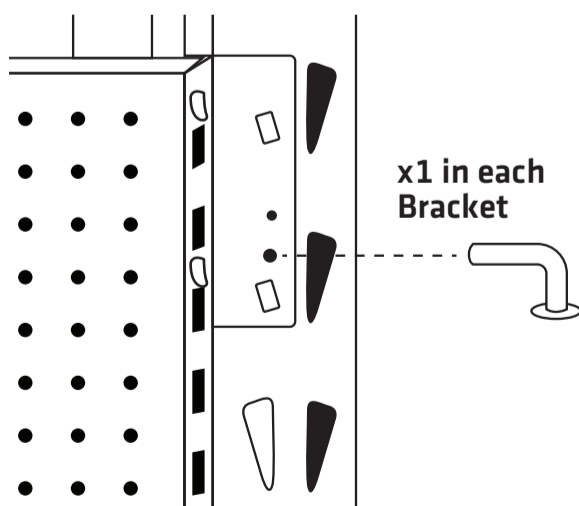

STEP 4

With one person at each end, while holding the Brackets lift the super-wide double Peg Board into position above your Bottom half. Once your Top half is in place, insert an Angled Bracket between the 2x Peg Board halves and secure with the supplied Nuts and Bolts.

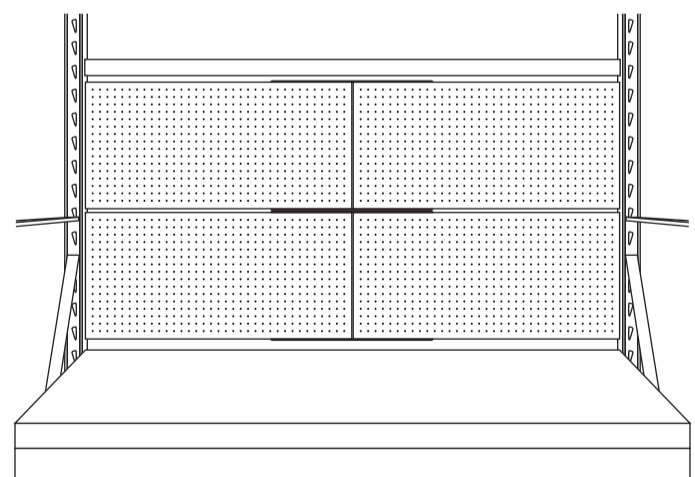

STEP 5

Insert Safety Pins into all 4x Brackets and you'll stop your Peg Board doing anything crazy, like tipping over.

x1 in each Bracket

Give yourself (and your friend) a hi-five once more! You've got this pegged.

You've done it! Cue warm inner feeling of satisfaction.

Stand back and marvel at your Rack It Peg Board(s). Give yourself (and your friend) a hi-five for the last time! You've got this well pegged. Now is the time to enjoy tossing these instructions in the recycling.

We knew you had it in you!
